

ERP READINESS ASSESSMENT

Ensuring ERP Success For Manufacturing & MRO

Embarking on an ERP journey? Akita's Dynamics 365 Readiness Review offers manufacturing and MRO organisations a structured approach to assess preparedness, ensuring a seamless transition to a Microsoft ERP solution:

KEY FEATURES

- **Comprehensive Evaluation:** Assess organisational readiness for transformation across strategy, processes, and technology.
- **Tailored Recommendations:** Receive actionable ERP insights specific to operations and work processes.
- **Stakeholder Alignment:** Understand the key personnel required for the project to ensure unified objectives and expectations.
- **Risk Mitigation:** Identify potential implementation challenges early, preventing costly setbacks or project delays.
- **Strategic Roadmapping:** Develop a clear ERP implementation plan aligned with business goals.

BENEFITS

- **Free Of Charge:** Explore potential ERP strategies with expert consultants at no cost and with no obligation.
- **Informed Decision-Making:** Leverage insights to make strategic choices throughout the ERP journey.
- **Enhanced Efficiency:** Streamline operations by addressing gaps before implementation.
- **Improved Adoption:** Facilitate smoother user transition with early engagement and training.
- **Ensure Long-Term Success:** Lay a solid foundation for sustained operational excellence.
